13 July 2009

**TO: All Members of the U.S. House of Representatives**

**RE: Cosponsor Representative John J. Duncan's proposed H.R. 2682  
legislation that cuts government waste and increases efficiency.**

Dear Representative:

On behalf of the Alliance for Worker Freedom (AWF), an organization established in 2003 to combat anti-worker legislation and promote free and open labor markets, **I would like to urge you to co-sponsor Representative John Duncan's H.R. 2682, the Freedom From Government Competition Act (FFGCA).**

Rep. Duncan's proposal would require federal agencies to purchase goods and services that are readily accessible from private businesses. According to a study by the federal government, there are 850,000 federal employee performed jobs which could easily be performed by the private sector.

Current legislation pits the federal government against private business; both sectors are trying to produce the same goods or services. This distorted market is one where Americans lose. Tax payers end up funding government programs that crowd out private business, resulting in a complacent and unproductive workforce.

Previous legislation, the Federal Activities Inventory Reform (FAIR) Act, requires an analysis of federal activities to determine which can be performed by the private sector, but the Act provides no details on how to make such a determination. FFGCA contains a clear litmus test when determining whether main street, private business, can provide the same goods and services currently provided by the federal government.

Government should not forget the fundamentals of the American economy and stop meddling with private business. The FFGCA will ensure free market competition: cutting costs, increasing efficiency, and freeing up tax payer revenue.

Sincerely,

Brian M. Johnson, MPA  
Executive Director
